

Nidhal BOUMAIZA

Full Stack Developer | Flutter, TypeScript & Express.js

Tunis, Tunisia | +216 28 316 089 | nidhal.boumaiza@outlook.com | github.com/nidhalboumaiza-0 | www.nidhalboumaiza.tech

PROFILE

Software Engineering student and freelance full-stack developer building Flutter apps, React web interfaces, and Express.js/Node.js APIs. Published Barberio on the App Store and Google Play as a personal production app. Focused on clean reusable code, REST APIs, responsive UI, Figma-to-screen implementation, debugging, and improving delivery quality with TypeScript, Docker, Jest, CI/CD, and Flutter testing practices.

CORE SKILLS

Backend	TypeScript, Node.js, Express.js, REST APIs, API validation, error handling, MongoDB, MySQL, Firebase
Mobile/Web	Flutter, Dart, React, JavaScript, responsive UI, platform-aware mobile screens, Flutter web basics
Quality & Delivery	Jest, flutter_test, Mockito basics, integration testing basics, Docker, GitHub Actions, Postman
Workflow	Git branching, pull requests, code reviews, debugging, Flutter DevTools, Figma-to-UI implementation

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer

Remote | Jun 2023 - Present

- ? Published Barberio, a barber booking application for Tunisia, on both App Store and Google Play; built flows for clients, barbers, and salon owners.
- ? Developed Flutter applications connected to Firebase, Express.js/Node.js, Django, MongoDB, and REST APIs across healthcare, booking, social, and management products.
- ? Built React + Express.js web applications including TeamFlow for centralized team, member, task, project, and equipment management.
- ? Implemented reusable UI components, responsive screens, authentication flows, notifications, appointment management, dashboards, and real-time data features.
- ? Strengthening delivery practices around TypeScript, Docker, Jest unit/integration tests, CI/CD with GitHub Actions, and Flutter widget/integration tests.

End-of-Studies Internship - Neopolis Development

Nabeul | Flutter / Express.js | Feb 2023 - May 2023

- ? Developed the mobile version and backend of an HR management platform for leave requests, IT equipment, hierarchy, shared documents, and suggestions.
- ? Connected Flutter screens to Express.js backend services and contributed to more structured internal HR workflows.
- ? Collaborated on requirements, implementation choices, debugging, and delivery of business features.

Development Internship - CPG Gafsa

Gafsa | Flutter / Node.js | Jan 2023 - Feb 2023

- ? Built a mobile application to simplify intern management, tracking, application workflows, and evaluation processes.
- ? Created administrator and supervisor views for operational follow-up.

Initiation Internship - Evolve'Com

Tunis | Prestashop CMS | Jan 2022 - Feb 2022

- ? Maintained product data for an e-commerce platform and learned CMS workflows with Prestashop.

SELECTED PROJECTS

Barberio - Published Product | Flutter, Dart, Firebase, Notifications, App Store, Google Play

- ? Production app for barber appointments in Tunisia: search, booking, reminders, reviews, portfolios, planning, services, team management, and dashboard features.
- ? Links: apps.apple.com/us/app/barberio/id6761790714 | play.google.com/store/apps/details?id=io.barberio.app

TeamFlow | React, Express.js, Node.js, MongoDB

- ? Team management web app with centralized member, project, task, and equipment workflows.

Medical App | Flutter, Firebase

- ? Healthcare mobile app with appointments, nearby hospitals/pharmacies, doctor messaging, authentication, real-time data, and notifications.

Library Management System | React, Flask, MySQL, Python

- ? Web app for books, authors, loans, returns, and loan status tracking.
