Nidhal BOUMAIZA

Full Stack Software Engineer & Mobile Developer

Software Engineer and Full-Stack Mobile Developer with proven expertise in Flutter, React, Next.js 16, Node.js, and Cloud architectures. Proven track record publishing production mobile apps on both the **Apple App Store** and **Google Play Store** at **AL Manarah Advanced Co**, and delivering enterprise engineering platforms at **eSteps Health** (CIRO Pizza automated omnichannel platform featuring 3 Flutter apps, Next.js 16 Web Admin, and distributed architecture). Committed to high performance, test-driven reliability, and user experience excellence.

TECHNICAL SKILLS & CORE COMPETENCIES

Mobile & Frontend	**Flutter**, Dart, **React 19 / 18**, **Next.js 16** (App Router, Server Components), TypeScript, JavaScript (ES6+), HTML5/CSS3
Backend & Real-Time	**Node.js**, **Express.js**, Python, Flask, Socket.IO, Microservices
Databases & Cloud	**MongoDB**, **MySQL**, **PostgreSQL**, MariaDB, Firebase (Auth, Firestore, Cloud Messaging, Storage), Supabase
DevOps & Automation	**Docker**, Git, GitHub Actions (CI/CD), **App Store Connect** & **Google Play Console** Publishing

PROFESSIONAL WORK EXPERIENCE

AL Manarah Advanced Company (goLance) — **Mobile Developer (Flutter)** **09/2025 – 09/2026**
International Freelance Contract • Riyadh / Remote

- Architected, developed, and deployed to production on the **Apple App Store** and **Google Play Store** the **Maqra'at Al-Rajhi** mobile application (interactive Quranic recitation & learning ecosystem).
- Engineered low-latency interactive audio live streaming for remote one-on-one recitation and listening sessions.
- Implemented dynamic teacher-student schedule slots, automated appointment management, push notifications, and resilient offline caching.
- Structured clean modular architecture for seamless testability, comprehensive RTL (Arabic) internationalization, and secure backend communication.

Barberio — **Live Production Mobile Application** **01/2026 – 05/2026**
Published on App Store & Google Play Store • Flutter, Supabase, Firebase

- Premier barbershop booking and salon management mobile app in Tunisia. Features interactive appointment calendar booking, real-time push notifications, verified reviews, and showcase portfolios. 6 official Play Store marketing screens.
- Designed and built end-to-end client booking pipeline, salon calendar sync, and automated push alerts.

eSteps Health — **Software Engineering Intern (PFE Ingénieur)** **02/2026 – 09/2026**
End-of-Studies Engineering Project (PFE) • Tunis, Tunisia

- Engineered **CIRO Pizza Platform**: an intelligent omnichannel automated restaurant system with robotic kitchen supervision.
- Delivered 3 native-performance Flutter applications: **Customer Mobile App** (AI voice ordering & live order tracking), **Interactive Totem Kiosk UI**, and **Delivery Rider App** with real-time GPS geolocation.
- Developed complete Web Admin Back-office using **Next.js 16**, React 19, and TypeScript with live courier tracking map, *Restaurant Intelligence* AI demand forecasting, and dynamic inventory threshold rules.
- Designed real-time backend architecture and automated gateway for robotic pizza assembly supervision. Fully containerized with Docker.

Neopolis Development — **Bachelor Graduation Intern (PFE Licence DSI)** **02/2023 – 05/2023**
Flutter / Express.js / MongoDB • Nabeul, Tunisia

- Developed mobile application (Flutter) and backend APIs (Express.js, MongoDB) for comprehensive HR management platform. Automated leave management, hardware tracking, hierarchy approvals, and shared document workflows.

CPG Gafsa (Compagnie des Phosphates de Gafsa) — **Advanced Training Intern (Stage de Perfectionnement)** **01/2023 – 02/2023**
Flutter / Node.js • Gafsa, Tunisia

- Created mobile application based on Flutter and Node.js for tracking, assigning, and evaluating intern performance within industrial departments.

Evolve'Com — **Introductory Intern (Stage d'Initiation)** **01/2022 – 02/2022**
Prestashop CMS / E-Commerce • Tunis, Tunisia

- E-commerce database maintenance, catalog optimization, and module customization for commercial site (kmandi.net).

SOFTWARE & MOBILE PROJECTS & WEB PLATFORMS

HajMoto & GASPINO — Mobile Products (Flutter) **2024**

Flutter, Supabase, Express.js, MongoDB, Docker

- **HajMoto**: Inventory management, sales POS, and automated PDF invoice generation system for motorcycle spare parts business (Flutter, Supabase).
- **GASPINO**: Food waste reduction marketplace connecting food retailers with consumers through discount alerts and geolocation.

Medical App & TeamFlow — Healthcare Mobile & Workspace Platform **2023 – 2024**

Flutter, Firebase, React.js, Node.js, Express.js, MongoDB

- **Medical App**: Engineered mobile healthcare application allowing patients to book appointments with verified doctors and locate pharmacies via maps.
- **TeamFlow**: Full-stack workspace platform enabling organizations to manage teams, projects, hierarchical tasks, member permissions, and equipment allocations.

Library Management System — Web Application **2023**

React.js, Python, Flask, MariaDB, Docker

- Automated library loan tracking, catalog management, relational book-author indexing, and automated penalty rules.

EDUCATION & QUALIFICATIONS

National Engineering Degree in Software Engineering
iTeam University — Tunis
09/2023 – 09/2026

Bachelor in Information Systems Development (DSI)
Higher Institute of Technological Studies of Nabeul (ISET Nabeul)
09/2020 – 06/2023

Baccalaureate in Computer Science
Lycée Abd Laaziz El Akremi — Gafsa
09/2019 – 06/2020

LANGUAGES & COMMUNITY LEADERSHIP

Languages
English: Professional Working Proficiency
French: Bilingual / Fluent | **Arabic**: Native

Community & Leadership
IEEE ISET Nabeul: Head of Human Resources (09/2022 – 01/2023)
Orange Tech Club: Treasurer & Event Coordinator (10/2021 – 01/2023)
