

Full-stack mobile developer

Nidhal BOUMAIZA

Currently third-year Software Engineering student and Freelancer with a strong interest for back-end and mobile development. Seeking an entry-level position to apply and enhance my programming skills while contributing to innovative projects. My ultimate aim is to grow into a proficient software engineer.

PROFESSIONAL EXPERIENCE

Freelance/ FLUTTER

Project released:

06/2023 - Present

• CAMPFIRE STORIES APP FRONTEND

- Development of the interface of this application and liaison with the Django backend which is developed by my colleague.

• B.LOC APP FRONTEND

- Development of the interface of this application and liaison with the Django backend which is developed by my colleague.

• DAYTE APP FRONTEND

- Development of the interface of this application and liaison with the ExpressJs backend which is developed by my colleague.

• Gaspino App

- It is an application to reduce food waste developed in Flutter and NodeJs

• Medical App

- Developed a mobile medical application using Flutter for the front-end and Firebase for authentication, real-time database, and notifications. This app allows patients to book appointments with doctors, locate nearby hospitals and pharmacies, and communicate directly with their doctor through an integrated messaging system.

Freelance/ ReactJs

Project released:

• TeamFlow

- Developed a web-based team management application called *Team Flow*, with a front-end built in React and a back-end using Express.js. It enables centralized and efficient management of teams, members, projects, tasks, and equipment.

INTERESTS

Football

Anime

Tennis

• Library Management System

- Developed a web application for library management with a front-end in React and a back-end in Flask. It allows users to add books and authors, with automatic linking between them. The app also manages book borrowings and returns, and tracks the status of each loan.

Internship - Neopolis Development

02/2023 - 05/2023

Flutter / ExpressJs

Nabeul

- Development of a mobile version and back-end of the human resources management platform for Neopolis. This platform leveraged technology solutions to automate and streamline various HR processes such as leave management, hardware, subordinates, shared documents, suggestions.

Advanced training - CPG Gafsa

01/2023 - 02/2023

Flutter / ExpressJs

Gafsa

- Development of a mobile application based on Node.js and Flutter technologies to facilitate the management of interns within the company.

Internship - Evolve'Com

01/2022 - 02/2022

CMS Prestashop

Tunis

- Fill in the database of an e-commerce site: <https://kmandi.net>
- Get familiar with the Prestashop.14 CMS

COMMUNITY LIFE
