

Nidhal BOUMAIZA

Full Stack Software Engineer & Mobile Developer

Software Engineer and Full-Stack Mobile Developer with proven expertise in Flutter, React, Next.js 16, Laravel 12, Node.js, and Cloud architectures. Proven track record publishing production mobile apps on both the **Apple App Store** and **Google Play Store** at **AL Manarah Advanced Co**, and delivering enterprise engineering platforms at **eSteps Health** (CIRO Pizza automated omnichannel platform featuring 3 Flutter apps, Next.js 16 Web Admin, real-time Reverb WebSockets, and SCADA robotics). Committed to clean architecture, test-driven reliability, and high-performance user experiences.

TECHNICAL SKILLS & CORE COMPETENCIES

Mobile & Frontend	Flutter (BLoC, Provider), Dart, React 19 / 18 , Next.js 16 (App Router, Server Components), TypeScript, JavaScript (ES6+), HTML5/CSS3, Tailwind CSS
Backend & Real-Time	Laravel 12 (Reverb WebSockets), Node.js , Express.js , Python, Flask, Socket.IO, RESTful APIs, JWT Authentication, Microservices
Databases & Cloud	MongoDB , MySQL , PostgreSQL , MariaDB, Firebase (Auth, Firestore, Cloud Messaging, Storage), Supabase, Redis
DevOps & Automation	Docker , Git, GitHub Actions (CI/CD), App Store Connect & Google Play Console Publishing, Linux VPS, SCADA / IoT, Agile/Scrum

PROFESSIONAL WORK EXPERIENCE

- AL Manarah Advanced Company (goLance) — Mobile Developer (Flutter)**

09/2025 – Present

International Freelance Contract • Riyadh / Remote

 - Architected, developed, and deployed to production on the **Apple App Store** and **Google Play Store** the **Maqra'at Al-Rajhi** mobile application (interactive Quranic recitation & learning ecosystem).
 - Engineered low-latency interactive audio live streaming for remote one-on-one recitation and listening sessions.
 - Implemented dynamic teacher-student schedule slots, automated appointment management, push notifications, and resilient offline caching.
 - Structured clean BLoC architecture for seamless testability, comprehensive RTL (Arabic) internationalization, and secure RESTful backend communication.
- Barberio — Live Production Mobile Application**

06/2023 – Present

Published on App Store & Google Play Store • Flutter, Express.js, Firebase

 - Premier barbershop booking and salon management mobile app in Tunisia. Features interactive appointment calendar booking, real-time push notifications, verified reviews, and showcase portfolios. 6 official Play Store marketing screens.
 - Designed and built end-to-end client booking pipeline, salon calendar sync, and automated SMS/push alerts.
- eSteps Health — Software Engineering Intern (PFE Ingénieur)**

02/2026 – 09/2026

End-of-Studies Engineering Project (PFE) • Tunis, Tunisia

 - Engineered **CIRO Pizza Platform**: an intelligent omnichannel automated restaurant system with robotic kitchen supervision.
 - Delivered 3 native-performance Flutter applications: **Customer Mobile App** (AI voice ordering & live order tracking), **Interactive Totem Kiosk UI**, and **Delivery Rider App** with real-time GPS geolocation.
 - Developed complete Web Admin Back-office using **Next.js 16**, React 19, and TypeScript with live OpenStreetMap courier tracking, *Restaurant Intelligence* AI demand forecasting, and dynamic inventory threshold rules.
 - Designed real-time backend in **Laravel 12** with **Reverb** WebSockets for millisecond-latency order broadcasting; integrated industrial **SCADA** supervision for automated pizza assembly. Fully containerized with Docker.

PROFESSIONAL EXPERIENCE (CONTINUED & INTERNSHIPS)

Neopolis Development — Bachelor Graduation Intern (PFE Licence DSI) <i>Flutter / Express.js / MongoDB • Nabeul, Tunisia</i> Developed mobile application (Flutter) and backend APIs (Express.js, MongoDB) for comprehensive HR management platform. Automated leave management, hardware tracking, hierarchy approvals, and shared document workflows.	02/2023 – 05/2023
CPG Gafsa (Compagnie des Phosphates de Gafsa) — Advanced Training Intern (Stage de Perfectionnement) <i>Flutter / Node.js • Gafsa, Tunisia</i> Created mobile application based on Flutter and Node.js for tracking, assigning, and evaluating intern performance within industrial departments.	01/2023 – 02/2023
Evolve'Com — Introductory Intern (Stage d'Initiation) <i>Prestashop CMS / E-Commerce • Tunis, Tunisia</i> E-commerce database maintenance, catalog optimization, and module customization for commercial site (kmandi.net).	01/2022 – 02/2022

SOFTWARE & MOBILE PROJECTS & WEB PLATFORMS

HajMoto & GASPINO — Mobile Products (Flutter) <i>Flutter, Supabase, Express.js, MongoDB, Docker</i> HajMoto: Inventory management, sales POS, and automated PDF invoice generation system for motorcycle spare parts business (Flutter, BLoC, Supabase). GASPINO: Food waste reduction marketplace connecting food retailers with consumers through discount alerts and geolocation.	2024
Medical App & TeamFlow — Healthcare Mobile & Workspace Platform <i>Flutter, Firebase, React.js, Node.js, Express.js, MongoDB</i> Medical App: Engineered mobile healthcare application allowing patients to book appointments with verified doctors and locate pharmacies via maps. TeamFlow: Full-stack workspace platform enabling organizations to manage teams, projects, hierarchical tasks, member permissions, and equipment allocations.	2023 – 2024
Library Management System — Web Application <i>React.js, Python, Flask, MariaDB, Docker</i> Automated library loan tracking, catalog management, relational book-author indexing, and automated penalty rules.	2023

EDUCATION & QUALIFICATIONS

National Engineering Degree in Software Engineering iTeam University — Tunis 09/2023 – 09/2026
Bachelor in Information Systems Development (DSI) Higher Institute of Technological Studies of Nabeul (ISET Nabeul) 09/2020 – 06/2023
Baccalaureate in Computer Science Lycée Abd Laaziz El Akremi — Gafsa 09/2019 – 06/2020

LANGUAGES & COMMUNITY LEADERSHIP

Languages English: Professional Working Proficiency French: Bilingual / Fluent Arabic: Native
Community & Leadership IEEE ISET Nabeul: Head of Human Resources (09/2022 – 01/2023) Orange Tech Club: Treasurer & Event Coordinator (10/2021 – 01/2023)
