

Full-stack mobile developer

Nidhal BOUMAIZA

Software Engineer and Freelance Full-Stack Mobile Developer with hands-on experience in mobile applications, real-time backends, and cloud platforms. Proven track record publishing production Flutter apps on App Store and Google Play (Al Manarah Advanced Co, Barberio) and delivering large-scale engineering platforms at eSteps Health (CIRO Pizza Platform with Flutter, Next.js 16 Web Admin, SCADA, and Laravel 12). Passionate about building robust, scalable solutions and driving meaningful product impact.

UPBRINGING

Engineer Program in Software Engineering – 3rd year

iTeam University — Tunis

09/2023 - 09/2026

Bachelor in Information Systems Development (DSI)

Higher Institute of Technological Studies of Nabeul (ISET Nabeul)

09/2020 - 06/2023

Baccalaureate of Computer Science

High School of Abd Laaziz El Akremi Gafsa

09/2019 - 06/2020

PROFESSIONAL EXPERIENCE

AL Manarah Advanced Company (goLance)

09/2025 - Present

Mobile Developer (Flutter) • International Freelance Contract • Riyadh / Remote

- Engineered, optimized, and published **Maqra'at Al-Rajhi** on the **App Store** and **Google Play** (Quranic recitation & education mobile application).
- Implemented low-latency live audio streaming for remote recitation teacher-student sessions.
- Architected modular BLoC state management, dynamic session reservation slots, and offline caching.
- Delivered complete RTL (Arabic) internationalization and secure REST API consumption.

eSteps Health — Software Engineering Intern (PFE)

02/2026 - 09/2026

End-of-Studies Engineering Project • Tunis

- Architected and delivered **CIRO Pizza Platform**: intelligent omnichannel quick-service restaurant ecosystem with robotic automation.
- Built 3 Flutter applications: **Customer Mobile App** (AI voice assistant & live tracking), **Interactive Totem Kiosk**, and **Delivery Rider App** with real-time GPS tracking.
- Developed full Web Admin Back-office in **Next.js 16**, React 19, and TypeScript with live OpenStreetMap rider dispatch, Restaurant Intelligence AI demand analytics, and inventory threshold rules.
- Engineered **Laravel 12** backend with **Reverb** WebSockets for instant order lifecycle dispatch; integrated industrial **SCADA** robotic pizza assembly supervision. Containerized with Docker.

Barberio — Production Mobile Application

06/2023 - Present

Published on App Store & Google Play Store • Flutter, Express.js, Firebase

- Barbershop booking and salon management app in Tunisia. Features real-time schedule booking, portfolio galleries, push notifications, and verified customer reviews. 6 official Play Store screens.

LANGUAGES

English (Professional Working)
French (Bilingual / Fluent)
Arabic (Native)

KEY EXPERTISE

- Mobile-First
- Clean Architecture
- BLoC Pattern
- RESTful APIs
- Real-time Sockets
- SCADA Systems
- Docker Deploy
- App Store Connect
- Play Console
- CI/CD Pipeline

INTERESTS

- Football
- Anime
- Tennis

AVAILABILITY

Available immediately for full-time engineering roles, freelance contracts, or remote opportunities. Full international mobility.

FEATURED APPLICATIONS & PROJECTS

- **HajMoto & Gaspino App (Flutter)**
 - **HajMoto:** Inventory, sales POS, and automated PDF invoice generator for motorcycle parts shop (Flutter, BLoC, Supabase, Docker).
 - **Gaspino App:** Food waste reduction application connecting local food merchants and consumers with real-time alerts (Flutter, Express.js, MongoDB).
- **Medical App & TeamFlow**
 - **Medical App:** Flutter & Firebase telemedicine app with appointment booking, pharmacy geolocation, and real-time doctor-patient chat.
 - **TeamFlow:** Web-based team and project management workspace built with React, Express.js, and MongoDB.
 - **Library Management System:** Full-stack web system developed with React, Flask, and MariaDB under Docker.

PREVIOUS INTERNSHIPS

- Internship - Neopolis Development

02/2023 - 05/2023

Flutter / ExpressJs • Nabeul

 - Development of a mobile version and back-end of human resources management platform. Automated leave management, IT assets, and shared documentation.
- Advanced training - CPG Gafsa

01/2023 - 02/2023

Flutter / Node.js • Gafsa

 - Developed mobile application based on Node.js and Flutter to manage and evaluate company interns.
- Internship - Evolve'Com

01/2022 - 02/2022

CMS Prestashop • Tunis

 - Product catalogue maintenance and database administration for e-commerce website (kmandi.net) via Prestashop CMS.

COMMUNITY LIFE

- IEEE ISET NABEUL (09/2022 - 01/2023)

Head of Human Resources responsible for recruitment, internal communication, and group cohesion.
- Orange Tech Club ISET NABEUL (10/2021 - 01/2023)

Treasurer managing budget and technological events.
